

CURLINFO\_CONTENT\_LENGTH\_UPLOAD(3) curl\_easy\_getinfo(3) CURLINFO\_CONTENT\_LENGTH\_UPLOAD(3)

## NAME

CURLINFO\_CONTENT\_LENGTH\_UPLOAD – get the specified size of the upload

## SYNOPSIS

```
#include <curl/curl.h>
```

```
CURLcode curl_easy_getinfo(CURL *handle, CURLINFO_CONTENT_LENGTH_UPLOAD,  
double *content_length);
```

## DESCRIPTION

Pass a pointer to a double to receive the specified size of the upload. Since 7.19.4, this returns -1 if the size isn't known.

## PROTOCOLS

All

## EXAMPLE

TODO

## AVAILABILITY

Added in 7.6.1

## RETURN VALUE

Returns CURLE\_OK if the option is supported, and CURLE\_UNKNOWN\_OPTION if not.
